GVX

Modular Secure Storage

GVX safes for compartments are designed for modular assembly answering the requirements of small, cramped or difficult-to-reach installation sites.

Key features

PROTECTION

- ✦ Burglary resistance

CAPACITY

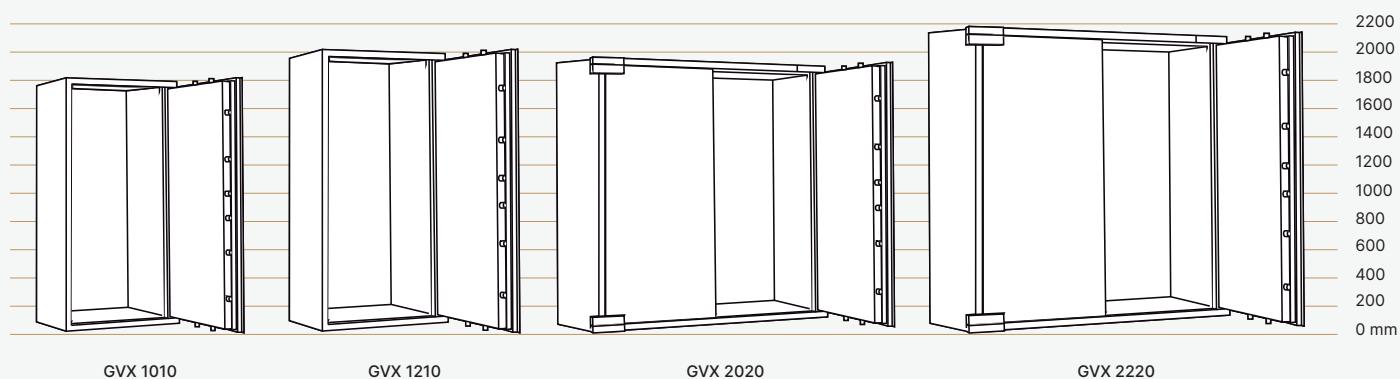

- ✦ 1010 litres
- ✦ 1210 litres
- ✦ 2020 litres
- ✦ 2220 litres

KEY BENEFITS

- ✦ Modular safes allowing for installation on locations with only limited space
- ✦ Delivers vault-grade performance with more installation flexibility and less impact on your infrastructure

Fichet-Bauche guarantees

Our products are subjected to the most stringent tests approved by insurers and A2P-certified by France's National Centre for Prevention and Protection (CNPP). This is the result of integrating our own test laboratory into our factory to impose conditions going even further than those of certifying bodies. Installation is also carried out by our own technicians to ensure certification of your safe is always preserved.

electronic combination Lock

A hallmark of our brand

With 200 years of experience as master locksmiths, we develop and manufacture our own exclusive locks. This is one of the key strengths of our safes and a guarantee of high security. We remain committed to permanent investment in R&D, always looking for more functionality, more resistance, new materials and more advanced lock technologies.

Product details

GVX safes can be easily assembled, dismantled and later re-assembled. With a much smaller footprint, all four models in the range deliver the same level of protection as a vault for your cash and valuables. Their slim reinforced panels offer solid burglary resistance while ensuring considerable storage capacity is available. Finally, their installation is much easier and adapts to a wide variety of environments.

PERFORMANCE AND SECURITY

- ✦ Choice of mechanical and/or electronic locks (all A2P-certified as per EN 1300)
- ✦ 1-door model: 10 bolts.
- ✦ 2-door models: 4 bolts on the left door, 10 bolts on the right door
- ✦ Tubular bolts with a 35mm diameter
- ✦ GVX safes can also be fitted with special compartments answering the same needs as vaults

INTERIOR FITTINGS AND OPTIONS

- ✦ 5 shelves kit
- ✦ Additional shelves
- ✦ Compartments

INSTALLATION REQUIREMENTS

- ✦ A minimum ceiling height of 2300mm is required for the installation of GVX 2220 and 1210 models, 2100mm for GVX 2020 and 1010 models, and 2125mm for 1010 PSH models.
- ✦ All safes are supplied with a ready-to-paint primer.
